

# GLOBAL MATERNAL SEPSIS STUDY

We are **conducting a study** to assess the burden and management of **maternal infections and sepsis in your facility.**

## PLEASE REFER ANY WOMAN TO THE STUDY TEAM IF SHE IS:

- **Currently pregnant or was pregnant anytime between 16 October and 04 December 2017** (regardless of the outcome of her pregnancy)

AND

- Has a suspected or confirmed **infection**, OR
- Had a sample sent for **culture**, OR
- Is receiving therapeutic **antibiotics** or other antimicrobials, OR
- Is **unwell** without a known cause (e.g. no haemorrhage, no hypertension)
